

Children's Services

Child Health Team (Audiologist, Dietitian)

Early childhood is both a rewarding and challenging time for parents and children. When developmental problems occur these challenges can be overwhelming. MCHS offers a range of services that can assist in identifying and addressing some of the causes of developmental delays.

The Child Health Team provides multidisciplinary (more than one staff member) assessment and therapy services for children with developmental concerns and delays. The staff provide assessment and support for children aged 0-18.
